

Fat and Skinny Cows Craft

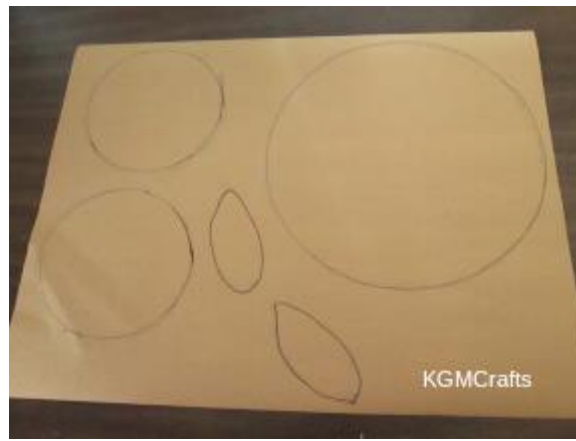

Pharaoh dreamed that seven fat cows came out of the Nile. Then seven skinny cows came out of the river. The skinny cows ate the fat cows. You can read the story in Genesis 41:1-4.

You will need;

- 2 sheets of thick brown paper
- A round shape approximately 9 cm in diameter such as a cottage cheese container
- A round lid that measures approximately 16 cm
- Scraps of yellow and pink paper
- Scissors
- Glue stick
- Wiggly eyes

Fold one sheet of brown paper in half. Draw your "U" shape on this paper. Also, draw a 10 cm by 1.25 cm rectangle with a tear shape for the tails. Also, draw a tear shape for the ears.

On the other sheet of brown paper draw the two 9 cm circles, two 6 cm tear shapes, and a 16 cm circle.

Cut two small rectangles from pink paper. Fold each of the rectangles in half and round the corners to make the noses.

From yellow paper cut two 5 cm by 4 cm rectangles. On each rectangle draw a "U" shape. Taper the ends to a point. This will be the horns.

Glue the nose to the front of the two circles. Glue the horns to the top of the back of the circles. Glue the ears to the sides of the head.

Turn the "U" shape over so the points are down - these will be the legs. Glue the large circle to the centre of the upside down "U". Glue the head to one side. Glue the tail to the back opposite of the head.

Add wiggly eyes.

For the skinny cow glue the head and tail to the upside-down "U" shape. Add wiggly eyes.
